

CSU ADVISE

CSU ADVISE (<https://csuadvise.columbusstate.edu/>) serves as a central resource for students, informing and supporting them concerning academic programs, student services/resources, and other opportunities available at CSU. Advisors primarily work with dual enrollment, early college, freshmen and sophomores. They also work with juniors and seniors in select majors. CSU ADVISE helps students explore various majors, identify clear pathways to academic success, and help build momentum towards achieving academic and professional goals. CSU ADVISE works closely with all academic departments and ensures a seamless transition to faculty advisors at the appropriate point in a student's degree plan. CSU ADVISE also implements the University Support program for students who are on University Support Standing.
