

CURRICULUM AND LEADERSHIP (EDD) - HIGHER EDUCATION ADMINISTRATION TRACK

Program Overview

With the present climate of accountability, there is substantial demand for educators who have a high level of expertise in school improvement, professional learning, and educational research. Educators who work with various student populations should be able to identify current needs, examine or explore those needs, and implement practices and/or policies based on empirical literature to improve those needs. The College of Education and Health Professions at Columbus State University is committed to developing this level of expertise through the Doctor of Education in Curriculum and Leadership Program. The EdD Program offers three specialization program tracks:

Curriculum,

Educational Leadership, and

Higher Education Administration.

The Higher Education Administration program track follows a cohort model implemented through synchronous and asynchronous online instruction. Courses in the 63-credit hour, doctoral program are intended for school administrators and other individuals seeking professional expertise in higher education administration.

Additional program information can be found on the CSU Department of Teacher Education, Leadership, and Counseling (<https://tlc.columbusstate.edu/doctoral-program/resources-for-doctoral-students.php>) website.

Career Opportunities

Careers, such as administrators in enrollment services, academic affairs, and student affairs, are all available to individuals who earn a Doctorate of Education in Curriculum and Leadership with a specialization in higher education administration.
