

SPECIAL EDUCATION (BSED)

Program Overview

The Special Education program at Columbus State University provides pre-service teachers a solid knowledge base emphasizing contemporary theory and research. In the first two years, a pre-professional special education major completes studies which establish eligibility for admission to teacher education. This is followed by a sequence of online and field-based courses culminating in the student teaching semester during the senior year.

All educator preparation programs are approved by the Georgia Professional Standards Commission. In addition to the degree requirements, there are further requirements for teaching certification. Visit the Certification page (<https://cctl.columbusstate.edu/certification.php>) on the CSU Center for Quality Teaching and Learning (CQTL) website for detailed information about certification requirements and the certification process.
